1. Acknowledges order from Officer (Time starts) 2. Selects proper extinguisher for scenario 3. Advances toward objective (Upwind and uphill) 4. Confirms adequate pressure/level for scenario 5. Removes lock pin/tamper seal 6. Aims nozzle at base of flame 7. Squeezes discharge handle 8. Sweeps agent back and forth; applying agent 9. Confirms extinguishment 10. Reports task completion to Engineer/Officer (Time Stops) * Indicates a "Critical" component. Failure to complete any critical component constitutes a complete failure of the skill Pass / Fail
